

## REMARKS

In the Response to the Rule 312 communications of September 17, 2008, the Examiner did not enter new claims 37-47 because the terms "other 3-D structure" lacked an antecedent basis. However, the phrase now correctly reads "selected 3-D structure" in the claims 37-46.

Therefore, if procedurally possible Applicant respectfully requests that these new claims 37-46 be added to the application and allowed.

No new subject matter has been added by this amendment and the change does not alter the finding of patentability. Accordingly, Applicant respectfully requests that this amendment be considered and entered in the application and that the application move forward into issuance as soon as possible.

Respectfully submitted,

25 September 2008
